Read-ahead feedback for Oct

This is for Randy's proposal to charge PO Pay Pal 3% fee.

I really don't see this statement needs to be adjust we the PO pay our dues to cover minor expenses like this. You send out a self-address stamped envelope for everything like voting, welcome packages and I may be wrong and assessment fees. On the June read-ahead Randy Questioned who pays for fees, and how are fees paid. If I remember correctly, it was mentioned by serveral people who has Pay Pal, he could set up a Pay Pal account with no fees. Why wasn't that address instead pushing more out of pocket expenses on PO again. I feel if the PO handles this 3% fee no one will use it. That is a shame it is a good idea for it not to be used. **Not in favor**
